## Irrigation Notice

A major issue with our irrigation system occurs when too many homes water at the same time. This causes reduced water flow, pumps to shut down and strain of excessive flow causes damaging overheating to the irrigation pumps. To avoid these issues the irrigation committee is going to assign irrigation start times.

IF you would like to start using this new schedule please find the times by address below. As rainy season comes to an end we all need to do our part to ease the strain on our irrigation pumps

### **NOTICE of pool closure Please be aware**

**Tentatively** next week the Pool, Spa and area around them will be closed for major renovations. Tri City Pools is waiting upon a permit. The brick coping on the perimeter of the pool will be replaced with new coping. As a result of this work, the pool will have to be drained, pressure washed and acid washed. The Spa will be drained and all hollow or delaminated material will be chipped out. All return inlets will be replaced, the main drain cover will be replaced with a code compliant anti-entrapment cover and the surface will have Silver Pearl finish applied. This finish is a blue/silver color instead of the existing brown that always looked dirty. The cap tiles will be replaced on the steps, benches and gutters with ceramic non-skid tile. To fix the loose pool hand rail to meet the Health Departments code, the existing deteriorated concrete slab will be replaced.

Thank you in advance for your patience as this amenity is being upgraded for our use.
